KARYN E. POLITO
LIEUTENANT GOVERNOR

**ORDER SUSPENDING CERTAIN PROVISIONS
OF THE OPEN MEETING LAW, G. L. c. 30A, § 20**

WHEREAS, on March 10, 2020, I, Charles D. Baker, Governor of the Commonwealth of Massachusetts, acting pursuant to the powers provided by Chapter 639 of the Acts of 1950 and Section 2A of Chapter 17 of the General Laws, declared that there now exists in the Commonwealth of Massachusetts a state of emergency due to the outbreak of the 2019 novel Coronavirus ("COVID-19"); and

WHEREAS, many important functions of State and Local Government are executed by "public bodies," as that term is defined in G. L. c. 30A, § 18, in meetings that are open to the public, consistent with the requirements of law and sound public policy and in order to ensure active public engagement with, contribution to, and oversight of the functions of government; and

WHEREAS, both the Federal Centers for Disease Control and Prevention ("CDC") and the Massachusetts Department of Public Health ("DPH") have advised residents to take extra measures to put distance between themselves and other people to further reduce the risk of being exposed to COVID-19. Additionally, the CDC and DPH have advised high-risk individuals, including people over the age of 60, anyone with underlying health conditions or a weakened immune system, and pregnant women, to avoid large gatherings.

WHEREAS, sections 7, 8, and 8A of Chapter 639 of the Acts of 1950 authorize the Governor, during the effective period of a declared emergency, to exercise authority over public assemblages as necessary to protect the health and safety of persons; and

WHEREAS, low-cost telephone, social media, and other internet-based technologies are currently available that will permit the convening of a public body through virtual means and allow real-time public access to the activities of the public body; and

WHEREAS section 20 of chapter 30A and implementing regulations issued by the Attorney General currently authorize remote participation by members of a public body, subject to certain limitations;

NOW THEREFORE, I hereby order the following:

(1) A public body, as defined in section 18 of chapter 30A of the General Laws, is hereby relieved from the requirement of section 20 of chapter 30A that it conduct its meetings in a public place that is open and physically accessible to the public, provided that the public body makes provision to ensure public access to the deliberations of the public body for interested members of the public through adequate, alternative means.

Adequate, alternative means of public access shall mean measures that provide transparency and permit timely and effective public access to the deliberations of the public body. Such means may include, without limitation, providing public access through telephone, internet, or satellite enabled audio or video conferencing or any other technology that enables the public to clearly follow the proceedings of the public body while those activities are occurring. Where allowance for active, real-time participation by members of the public is a specific requirement of a general or special law or regulation, or a local ordinance or by-law, pursuant to which the proceeding is conducted, any alternative means of public access must provide for such participation.

A municipal public body that for reasons of economic hardship and despite best efforts is unable to provide alternative means of public access that will enable the public to follow the proceedings of the municipal public body as those activities are occurring in real time may instead post on its municipal website a full and complete transcript, recording, or other comprehensive record of the proceedings as soon as practicable upon conclusion of the proceedings. This paragraph shall not apply to proceedings that are conducted pursuant to a general or special law or regulation, or a local ordinance or by-law, that requires allowance for active participation by members of the public.

A public body must offer its selected alternative means of access to its proceedings without subscription, toll, or similar charge to the public.

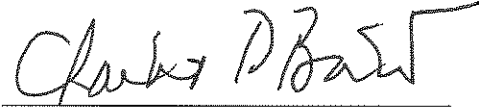

(2) Public bodies are hereby authorized to allow remote participation by all members in any meeting of the public body. The requirement that a quorum of the body and the chair be physically present at a specified meeting location, as provided in G. L. c. 30A, § 20(d) and in 940 CMR 29.10(4)(b), is hereby suspended.

(3) A public body that elects to conduct its proceedings under the relief provided in sections (1) or (2) above shall ensure that any party entitled or required to appear before it shall be able to do so through remote means, as if the party were a member of the public body and participating remotely as provided in section (2).

(4) All other provisions of sections 18 to 25 of chapter 30A and the Attorney General's implementing regulations shall otherwise remain unchanged and fully applicable to the activities of public bodies.

This Order is effective immediately and shall remain in effect until rescinded or until the State of Emergency is terminated, whichever happens first.

Given in Boston at 6:40 PM this 12th day of

Dear Nantucket Land Bank staff and commission,

Below, please find our letter of interest regarding the cottage at 174 Orange Street. Adding the cottage to our property would allow us to provide year-round housing for two island families, while allowing us to grow our own family on this property.

See Appendix A for documentation of our ownership of 34 Fairgrounds Road, where we intend to move the cottage.

We have coordinated with Toscana, who have confirmed that this move is both financially and logistically feasible. Our general contractor will be Twig Perkins, who has worked with Toscana on several house moves before and is familiar with the permitting and logistics this project will entail. Bernie Perkins, Director of Project Management & Site Operations at Toscana expects it will take 2-3 months to obtain permitting and approval from the planning board, health board and all relevant governing bodies. We would expect to start work in October and complete the project by January. (See Appendix B)

We would live in the cottage and continue renting the existing 3-bedroom house to year-round residents as we save money to eventually move the main house to the back of the lot. (See Appendix C for short term and long term plans). We have ensured that adding the cottage would comply with all relevant zoning requirements (Appendix D). Many of the similarly sized properties on our street have secondary dwellings so this cottage would be inline with the existing character and aesthetic of the neighborhood.

We wanted to provide some personal background to express why this opportunity is so important to us, and why we would be excellent recipients of this home. We are hardworking, year-round residents who love this island and are so proud to call it home.

Jacob is a Nantucket native. He is a co-owner and manager of the Garden Group, a locally built and owned landscaping company. He is also a musician who performs with his band at local venues and he is a trained luthier who repairs stringed instruments through his company Ackoustic.

Alice is a lifelong summer resident, turned washashore by marriage and strong commitment to Nantucket. Alice is a Registered Dietitian who works full time as a Nutritionist at Health Imperatives. She provides nutrition counseling for low income families on island through the

WIC program and teaches nutrition and cooking classes in the community and online. Recently, she has collaborated with Nantucket Cottage Hospital, the Community School and the Saltmarsh center to provide free nutrition classes to different sectors of the Nantucket community.

We got married last summer on Ladies beach and were ecstatic to close on our first home together this May. We love Nantucket and are excited to now have a little slice of the island to call our own. We purchased 34 Fairgrounds Road from Jacob's mother, Maryjane Mojer, who inherited the house from her parents, Joe and Madeline Perry. The existing house on the property is well-loved, however cannot sustain a growing family and include renters.

When we purchased the property, we envisioned building a secondary structure towards the front of the lot and eventually moving the existing house towards the back of the lot and expanding upon it to become the main house. The front cottage will continue to be a year-round rental. Our goal is to create year-round housing for fellow islanders and to build a home in which our family can grow and enjoy for many years to come. Jacob has many year-round employees who regularly struggle to find housing, so we know that there will be demand for this rental. For example, we know a year-round family of four that would be ecstatic to secure stable housing and avoid the "Nantucket shuffle."

In addition to our commitment to improving the housing crisis on island, we also recognize the importance of sustainability. Reducing waste is essential to protecting our beloved island. This is one of the reasons we are seeking to add a recycled home to the property, instead of building a new structure. Our home is located just 1/2 mile away, so the resources needed to transport the cottage would be minimal.

The cottage at 174 Orange Street not only meets our wishes for size and layout, but we also loved the exterior and interior design. When we walked in and explored the space, it felt like the perfect home for us.

Please let us know if there is any other information you need at this time. We are excited about the possibility of making this cottage our home.

Sincerely,
Alice Townsend-Williams
Jacob Williams

APPENDIX C: Short term and long term plans

Image 1: Short Term Plans (1-5 years)

Description: This drawing shows the immediate plans for use of the cottage at 34 Fairgrounds. This will be temporary until the main house can be moved farther back in the lot and improved upon to better utilize the space in this long, narrow lot (100 feet by about 350 feet). The current position of the house is aesthetically and functionally not ideal. It is in the middle of the lot at an angle. The cottage will be placed at the front of the lot setback about 35' from the bike path on Fairgrounds Road. The cottage will be about 14 feet from the south/ left side boundary and 30 feet from the north/ right side boundary. It will have a thick border of native plants and a small front yard and entrance. There will be a small fenced-in yard separating it from the main house. The cottage will be approximately 50 feet from the main house. There will be one to two parking spots in front of the cottage and two to four parking spots along the driveway behind the cottage. The main house will remain in the current position for about five years, until we can afford to make improvements and move it to a better location towards the rear of the lot. It will continue to have a small, fenced-in yard. The driveway continues to the back of the lot, which currently houses two hoop houses, a shed and some gardening supplies. Over the next five years we will clean up this space and prepare it to be the location of the main house.

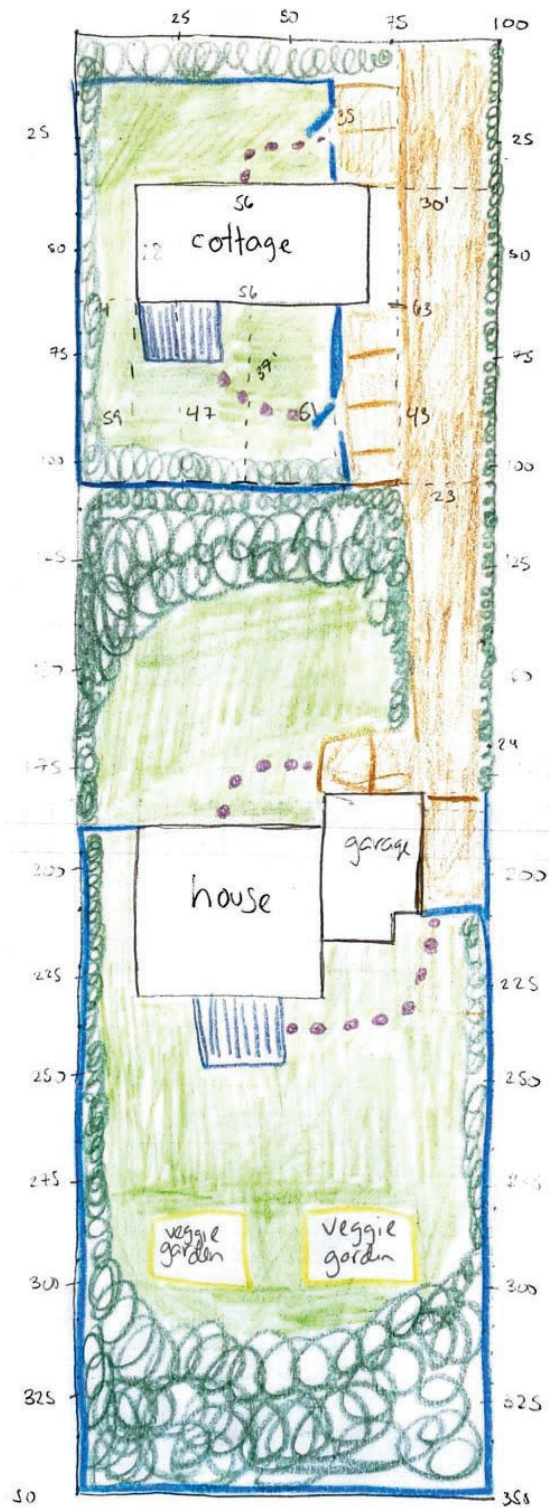

Image 2: Long Term Plans (5+ years)

Description: The cottage will remain towards the front of the lot. It will continue to have one to two parking spots in front and two to four parking spots behind. It will continue to have a thick border of native plants and a fenced in yard. The main house will be moved to be towards the back half of the lot, in line with the garage. There will be a thick border of native plants between the front cottage and back house. The back house will have a small front yard and a fenced in backyard with vegetable gardens and a thick barrier of trees on the rear boundary. There will be additional parking available in front of the garage and next to the garage.

APPENDIX D: Zoning Compliance

We are zoned as R-20, allowing for 4,356 sq. ft. (12.5%) groundcover of which we are currently using 2,468 between our house, garage and shed. The cottage has 1,291 sq. ft. ground coverage, well within the 1,888 sq. ft. of ground cover available. The cottage would also meet the set back requirements - it would be set back more than the 30 ft. required, and more than 10 ft. from each side. The cottage is 79% the ground cover of the main house, meeting the requirement of a secondary dwelling.

Dear Eric, Board members and Land Bank Staff,

I am writing you regarding the garage located on the old Hayes property at 174 Orange St.

My name is David Iverson. If I am lucky enough to get the garage, I intend to move it to my property located at 1 Falcon Dr. off South Shore Rd. I have 2 acres located in Lug 1 Zoning with plenty of ground cover available for the garage. The garage will be used to store machinery associated with our small animal farm. Tractor and associated equipment.

Chuck Delcourt will be doing the associated permitting. He has a contractor's license and has been permitting his own jobs on island for many years.

The moving will be done by Mike Day from Atlantic Aeolus. Mike has given me a verbal commitment to move the Garage in late fall pending your timeline and permitting.

Thank you for this opportunity. I am excited at the possibility of getting my equipment out of the weather and stored in a proper manner.

Sincerely

David Iverson
