SEASONAL, FULL-TIME
ECOLOGY AND LAND MANAGEMENT TECHNICIAN

The Nantucket Land Bank seeks a qualified individual to assist with environmental management responsibilities on Land Bank properties during 2021. This position begins in April and ends in October with potential for extension. The start date may be flexible. A minimum of 35 hours up to a maximum of 40 hours per week is required, with an unpaid lunch break. The primary responsibility of this position is to assist the Land Bank Environmental Coordinator and Field Ecologist with various tasks including (but not limited to) environmental permitting, vegetation surveys, invasive plant species management and monitoring, encroachment issues, and GPS/GIS tasks.

Pay starting at $20 per hour depending on experience. Housing may be available. Must possess a valid driver's license and be able to lift 50 pounds. CORI check required.

Please submit a resume and cover letter to scampese@nantucketlandbank.org. Applications must be received no later than February 28, 2021.

Candidates must possess the following qualifications:

- B.S., B.A or M.S. in biology, natural resources, environmental studies, or related field
- Relevant job experience
- Understanding of basic principles related to ecology, land management, botany, wildlife biology and wetland science.
- Experience identifying plants in the field and using a dichotomous key
- Ability to use handheld GPS units for navigation and to collect spatial data
- Possess a clear understanding of GIS theory and applications, including experience with ArcGIS 10.x to create maps
- Experience with the Wetlands Protection Act and Conservation Commission permitting
- Experience with Microsoft Office (Word, Excel)
- Experience with data entry and management
- Experience with technical writing
- Ability to communicate effectively, both written and orally, with a diverse audience
- Ability to work productively as part of a team and independently to accomplish mutual goals
- Proven ability to interact positively with the public
- Excellent organizational skills and attention to detail

Preference will be given to candidates with the following qualifications:

- Ability to perform habitat assessments and rare species surveys
- Experience with Massachusetts Natural Heritage and Endangered Species Permitting
- Knowledge of invasive plant species management principles
- Current Pesticide applicators license
