

AGENDA
Nantucket Land Bank Commission
Regular Meeting of September 13, 2022
Land Bank Conference Room, 22 Broad Street

CALL TO ORDER: 4:00 P.M.

A. CONVENE IN OPEN SESSION

1. PUBLIC COMMENT / STAFF ANNOUNCEMENTS

- a. Nantucket Preservation Trust – Landscape and Gardens Award

2. PROPERTY MANAGEMENT

- a. 32 Western Avenue – Permitting Update
- b. 174 Orange Street/Creeks Preserve – Wedding Ceremony Request (9/17/22)
- c. 181 Hummock Pond Rd/Gardner – Nantucket High School Cross Country Meets
- d. Various Properties – Request to Place Cameras on Properties for Climate Change Study
- e. Employee Housing Inventory – Review and Discussion

3. TRANSFER BUSINESS

- a. Current “M” Exemption
- b. Current “O” Exemption

4. APPROVAL OF MINUTES

- a. Regular Meeting of August 23, 2022

5. FINANCIAL BUSINESS

- a. Monthly Transfer Statistics
- b. Warrant Authorization – Cash Disbursement
- c. Fiscal Year 2023 Draft Budget – Discussion

6. COMMISSIONERS ADDITIONAL QUESTIONS AND CONCERNS

- B. EXECUTIVE SESSION: *The Executive Session is for Purpose 6 [G.L. c. 30A, 21(a)(6)]. The particular transactions and parcels of real estate are not identified since disclosure of the property information may have a detrimental impact on the Land Bank's negotiating position with one or more third parties; and for Purpose 3 [G.L. c. 30A, 21(a)(3)], discussions concerning strategy with respect to ongoing litigation. The Commission will not reconvene in open session at the conclusion of executive session.*

- 1. Approval of Executive Session Minutes
- 2. Land Court Department Action No. 20MISC000058: The Ceylon Elves, LLC v. Nantucket Islands Land Bank Commission (3 & 3B Wyer's Way)
- 3. 6 Wesco Place – Easement Encroachment
- 4. Real Estate Acquisition

C. ADJOURNMENT

From: Mary Bergman <mbergman@nantucketpreservation.org>
Date: September 9, 2022 at 9:24:35 AM EDT
To: Jesse Bell <jbell@nantucketlandbank.org>
Cc: Ben Normand <ben@normandresidential.com>
Subject: NPT Award

Dear Jesse,

I'm writing to let you know that the Nantucket Preservation Trust has decided that this year's Landscape and Gardens award will go to the Land Bank and Lucile Hays for the new Creeks Preserve Park. In particular, the Landscape and Garden committee appreciates the preservation of the Orange Street streetscape, the views of historic downtown and the waterfront from the park, increased accessibility, reuse of the guest house for year-round housing, the retention of the 'tea house' on the site, and the community benefit of having the park open and accessible to the public.

We will be sending out an invitation later today to our awards ceremony, 9/22 from 4-6 PM at 34 West Chester Street for a ceremony catered by Lemon Press and hope you and your staff and commissioners might be able to join us. Could you send me the emails of anybody who should be invited?

I'm copying Ben as his phasing of the property's history was useful in our discussions, and he knew we were considering this project.

With sincere thanks,
Mary

Mary Bergman
Executive Director

NANTUCKET PRESERVATION TRUST
11 Centre Street
PO Box 158

REQUESTS FOR TEMPORARY PRIVATE EVENT USE
ON NANTUCKET LAND BANK PROPERTIES

The Land Bank Commission will allow small, short, simple ceremonies with minimal set up (no tents, no amplified music, a few chairs for guests who cannot be expected to stand, and preferably fewer than 35 guests). Carpooling is strongly encouraged. Depending upon the size and scope, your request will either be reviewed internally by Staff or at a Land Bank Commission meeting after which you will be notified regarding approval status. All commercial events require payment of a \$100 fee.

***PLEASE NOTE THAT THE LAND BANK'S APPROVAL IS CONTINGENT UPON ALL
OTHER APPLICABLE TOWN PERMITS HAVING BEEN OBTAINED.¹***

APPLICANT NAME: Desislava Kehayova

MAILING ADDRESS: 13B Pine Tree Rd, Nantucket, MA 02554

TELEPHONE: (508)-221-4575 E-MAIL: desislava_kehaiova@yahoo.com

Proposed Location of EVENT: The Creeks Preserve

DATE of EVENT: 9.17.2022

TIME of EVENT: 4:30-5pm

Description / Anticipated # of attendees - *friends & family, around 35-40 people*

PLEASE DESCRIBE THE EVENT (theme, scope, duration, installation, food and beverage ...):

Approx.. 1 hour, flower arch installation, no food or drinks. We have our reception scheduled for right after the ceremony and we only want to use the location to get married. No drinks or food will be included. Someone will drop off the arch prior the ceremony (in the allowed time). The reception will be held at 5:30pm so everyone will be there for approx.. 1 hour. Thank you so much for considering us!

Approved/Denied: _____

Executive Director

Date: _____

Approval date

Staff Comments: _____

¹ Applicants must be in full compliance with Health Department, Fire, Police, and Natural Resources regulations. Contact Town of Nantucket Events Coordinator, Marina Dzvonik at 508-325-4166 or by email to mdzvonik@police.nantucket-ma.gov

A. Site selection criteria (10 timelapse camera sites + 10 ground observation sites)

The criteria are used to determine sites for setting up timelapse cameras and ground observations for plant phenology.

General criteria:

1. The sites should be **representative** of the local plant community habitat and environment conditions. Multiple sites better **stretch to cover the variations** of habitat types (e.g., shrub land, grass land, forest edge, disturbed area, etc.) and environments.
2. To minimize the observation time and labor, better to find sites with **multiple invasive and native species (Table 1)** occurring in the same type of habitat.
3. The sites should be **accessible** to persons who observe phenology and maintain camera operations, but need to be **away from unnatural disturbances** from irrelevant people or management activities by the land property managers.

Preferred sites (ideal scenario):

- Camera and ground observations occur in the same site.
- At each site, ground observations focus on at least 2 invasive species and at least 2 native species with 3-5 individuals for each species – observe at least 12-18 individuals total in each site. Same species occur in at least 3 sites which allows more variations of data within species.
- Timelapse cameras will capture a larger view than the area of observed individuals. Since most plant species are shrub and forb, the cameras should be able to have a top-down view over the plants. Cameras should be close enough (<10m distance) to identify the observed individuals from images, but also can see more plant individuals to monitor the seasonal changes at population or community level.

The reality maybe (in case):

- We can reduce the number of species in ground observations if time or labor does not allow.
- Ground observation sites can be different from camera sites to increase coverage of species and individuals, but still be better to capture at least 1 invasive and 1 analog native species in the same site, which will allow phenology comparisons.
- Maybe we can set a few core sites and a few gradient sites. Core sites should be observed with priority, and gradients sites may have less frequent observation in case or gradient sites can be at camera sites.

Table S1. List of native and invasive plant species in the proposed project.

	Scientific Name	Common Name	Growth Form
Native Species	<i>Gaylussacia baccata</i>	Black Huckleberry	shrub
	<i>Corylus americana</i>	American Hazelnut	shrub
	<i>Prunus maritima</i>	Beach Plum	shrub
	<i>Prunus serotina</i>	Black Cherry	shrub
	<i>Viburnum dentatum</i>	Arrowwood	shrub
	<i>Morella caroliniensis</i>	Northern Bayberry	shrub
	<i>Vaccinium angustifolium</i>	Low Bush Blueberry	shrub
	<i>Quercus ilicifolia</i>	Scrub Oak	shrub
Invasive species	<i>Lonicera morrowii</i>	Shrub honeysuckle	shrub
	<i>Rosa rugosa</i>	Beach rose	shrub
	<i>Leucanthemum vulgare</i>	Oxeye daisy	forb
	<i>Cytisus scoparius</i>	Scotch broom	shrub
	<i>Celastrus orbiculatus</i>	Bittersweet	vine
	<i>Centaurea stoebe</i>	Spotted knapweed	forb
	<i>Cynanchum louiseae</i>	Black swallowwort	herbaceous vine

B. Timelapse camera setting and maintenance protocol

General procedures:

1. Check all required materials
2. Insert batteries and SD card
3. Set camera parameters
4. Mount cameras in the field
5. Start monitoring
6. Maintenance (every 3 months): Exchange SD card, change batteries if necessary

Required materials:

- Timelapse cameras and accessories
- 2 standard SD cards per camera (write site name on the cards)
- 8 AA batteries per camera (Energizer ultimate lithium batteries can last more than 6 months with the below setting)

Camera parameter setting (set them after inserting batteries and before mounting cameras):

- Set present date and time
- Photo or video: photo
- Time lapse interval: 1 hour
- Multi-program: 1
- Wake up and sleep time: 7am – 6pm (12 photos/day)
- Resolution: high (4224 x 2376)
- Temperature unit: Celsius
- AC connected: No
- Wi-Fi SD card: No
- Set site name as the camera name (e.g. Site-1, Site-2, etc.)
- Imprint Info: Yes
- Managed memory: Do Not Overwrite

Camera set up:

- Cameras can be mounted on tree trunks or a metal pole in the field as below, depending on the monitoring targets and local condition. Prior experience suggests that using mounting straps on tree trunks might be more stable than using mounting arms on the pole, which need to be set very tight to hold the camera stable in a long time.

- Timelapse camera sites should allow the camera to capture multiple individuals of both invasive and native plants in the same site. Depending on the target plant size, adjust the distance between camera and plants to make the size of camera view clear enough to identify species and individual cover.
- Set focus distance to maximum
- Camera facing direction should NOT be south. North is the best avoiding the direct sunlight, east and west are ok.

Start the camera:

- Open camera cover, slide the power switch to **SETUP** position, press **OK**, the display should show what the camera is capturing. Check the preview in the display and adjust the camera if necessary to aim the target in the desired position and angle.
- Then slide the power switch to **ON**. A red light should be flashing after the camera is on. The display should show the status of camera in working.

Maintenance:

- Open camera cover, see if the red light is flashing (if yes, it means camera is working)
- Press **OK**, check the battery status (e.g., 99%), number of photos taken, etc.
- Slide to power switch to **PLAYBACK** to check the photos in SD card
- Slide the power switch to **OFF**, and exchange the SD card.
- Change batteries if necessary (usually ≥ 6 months)
- Slide the power switch to **ON**, and close the camera cover

Important:

- Make sure that the camera is in the OFF position before removing SD card
- Keep the camera's position stable during maintenance
- If mounted on tree trunks, need to loosen the mounting strap a bit every year to minimize the impact on the tree growth

Examples of camera setting and view used in Chicago Botanical Garden:

The role of phenology in shaping plant invasion under climate change at Nantucket island – Yingying Xie
